

PRESS RELEASE

Pulse Withstanding Resistors Now Available in 0.5% Tolerances

RALEIGH, NC (May 13, 2014) – Stackpole's RPC series of pulse withstanding chip resistors utilizes thick film technology. This series is well known for its outstanding pulse handling for both repetitive and single high power pulses. The RPC now offers tolerances as tight as 0.5%, making it a good choice for a variety of general purpose and precision applications, including:

- electronic scales and measurement systems
- data acquisition
- precision LED lighting controls
- vehicle lighting systems
- medical systems
- low power converters.

Pricing for the RPC 0.5% tolerance varies with size and resistance value, and ranges from \$0.045 to \$0.20 each in full reel quantities. Contact Stackpole for volume pricing.

For more information about Stackpole products, contact Stackpole Electronics, Inc. at 2700 Wycliff Road Suite 410, Raleigh NC 27607; phone 919-850-9500; email marketing@seielect.com or visit the website at www.seielect.com.

Stackpole Electronics Inc. is a leading global manufacturer of resistors supplying the world's largest OEMs, contract manufacturers and distributors. Headquartered in Raleigh, N.C., the privately held company began manufacturing in 1928 as part of Stackpole Carbon Company in St. Mary's, Pennsylvania. Now part of the Akahane Stackpole Manufacturing Group (ASMG), Stackpole has manufacturing facilities in Japan, Taiwan, China and Mexico; warehousing facilities in El Paso, Shenzhen and Japan; and international sales offices in Tokyo, Taipei, London, Hong Kong and Shenzhen.
