

# PRESS RELEASE

## CSSK High Current Sense Chip Resistors with Kelvin 4 Wire Connection

**RALEIGH, NC** (Aug. 6, 2014) – The CSSK Series from Stackpole offers a 0612 size chip resistor with Kelvin 4 wire connection. The robust all metal construction withstands pulses and environmental stresses with minimal resistance shift. The low resistance values down to 0.75 milliohms and the terminations on the long side of the part handle high currents with relatively low self-induced heating for high efficiency.

### Applications:

- Portable power management
- Laptops, netbooks, and tablets
- Portable test equipment
- Scanners
- Bar code readers

The CSSK0612 is available in resistance values from 0.75 milliohms to 2 milliohms in 1%, 2%, and 5% tolerances. Pricing varies with tolerance and resistance and ranges from \$0.25 to \$0.40 each in full package quantities. Contact Stackpole or one of our franchised distributors for volume pricing. The most popular values are currently in stock.

For more information about Stackpole products, contact Stackpole Electronics, Inc. at 2700 Wycliff Road Suite 410, Raleigh NC 27607; phone 919-850-9500; email [marketing@seielect.com](mailto:marketing@seielect.com) or visit the website at [www.seielect.com](http://www.seielect.com).

Stackpole Electronics Inc. is a leading global manufacturer of resistors supplying the world's largest OEMs, contract manufacturers and distributors. Headquartered in Raleigh, N.C., the privately held company began manufacturing in 1928 as part of Stackpole Carbon Company in St. Mary's, Pennsylvania. Now part of the Akahane Stackpole Manufacturing Group (ASMG), Stackpole has manufacturing facilities in Japan, Taiwan, China and Mexico; warehousing facilities in El Paso, Shenzhen and Japan; and international sales offices in Tokyo, Taipei, London, Hong Kong and Shenzhen.
