

PRESS RELEASE

RNV Series from Stackpole Improves TCR

RALEIGH, NC (Dec. 2, 2014) – Stackpole’s RNV series high voltage anti-moisture metal film resistors now offer a 100 ppm TCR option. This enables the RNV to be used for high voltage requirements in harsh environments, and applications with low TCR needs. The RNV14 has a maximum working voltage rating of 1600 VDC and a maximum overload voltage rating of 3200 VDC. In addition, the RNV can withstand 50 surges of up to 7KV from a 1 nF capacitor.

Applications:

- Consumer electronics
- Test equipment
- Data and network communications
- Robotics
- Automotive electronics
- Medical equipment
- High voltage power supplies

Pricing for the RNV14 ranges from \$0.025 to \$0.038 each depending on tolerance and resistance value. Contact Stackpole or one of our franchised distribution partners for volume pricing.

For more information about Stackpole products, contact Stackpole Electronics, Inc. at 2700 Wycliff Road Suite 410, Raleigh NC 27607; phone 919-850-9500; email marketing@seielect.com or visit the website at www.seielect.com.

Stackpole Electronics Inc. is a leading global manufacturer of resistors supplying the world's largest OEMs, contract manufacturers and distributors. Headquartered in Raleigh, N.C., the privately held company began manufacturing in 1928 as part of Stackpole Carbon Company in St. Mary's, Pennsylvania. Now part of the Akahane Stackpole Manufacturing Group (ASMG), Stackpole has manufacturing facilities in Japan, Taiwan, China and Mexico; warehousing facilities in El Paso, Shenzhen and Japan; and international sales offices in Tokyo, Taipei, London, Hong Kong and Shenzhen.
