

AVY

Surface Mount Automotive Varistors Offer Operating Temperatures up to 150°C

RALEIGH, NC (Jul. 20, 2016) – Stackpole’s AVY series is an automotive surface mount varistor that offers operating temperatures up to 150°C. This higher operating temperature allows their use in a wider range of environments compared to most varistors that can only operate at temperatures up to 125°C. The AVY is rated for up to 2000 amps of current and 25J load dump energy. The AVY is available in sizes 0805, 1206, 1210, 1812, 2220, and 3225, and is designed for 12V, 24V, and 42V electrical systems.

Pricing for the AVY varies with size and voltage and ranges from \$0.31 to \$1.15 each in full reel quantities. Contact Stackpole for volume pricing.

For more information about Stackpole products, contact Stackpole Electronics, Inc. at 2700 Wycliff Road Suite 410, Raleigh NC 27607; phone 919-850-9500; email marketing@seielect.com; or visit the website at www.seielect.com.

Stackpole Electronics Inc. is a leading global manufacturer of resistors supplying to the worlds largest OEMs, contract manufacturers and distributors. Headquartered in Raleigh, N.C., the privately held company began manufacturing in 1928 as part of Stackpole Carbon Company in St. Mary’s, Pennsylvania. Now part of the Akahane Stackpole Manufacturing Group (ASMG), Stackpole has manufacturing facilities in Japan, Taiwan, China and Mexico; warehousing facilities in El Paso, Shenzhen and Japan; and international sales offices in Tokyo, Taipei, London, Hong Kong and Shenzhen.
