## MG/MGM Series

### Axial Leaded Metal Glaze Resistors for 0.25W to 3W Applications

**RALEIGH, NC (December 19, 2016)** -- The MG / MGM Series from Stackpole is a high voltage thru hole resistor product with resistance values from 1K $\Omega$  up to 1G $\Omega$ . The metal glaze element provides working voltages ranging from 1600V up to 7000V, tolerances as low as 1% and 100 ppm/ $^{\circ}$ C TCR. This makes the MG / MGM Series ideal for all applications requiring good voltage handling, pulse handling, and moisture resistance including industrial power supplies and controls, motor controls, security systems, white goods, portable medical equipment, and welding equipment.

Pricing for the MG / MGM Series varies with size, resistance value, and tolerance and ranges from \$0.05 to \$3.80 each in full reel quantities. Contact Stackpole or one of our franchised distribution partners for volume pricing. Many popular resistance values and tolerances are in stock.

For more information about Stackpole products, contact Stackpole Electronics, Inc. at 2700 Wycliff Road Suite 410, Raleigh NC 27607; phone 919-850-9500; email [marketing@seielect.com](mailto:marketing@seielect.com); or visit the website at [www.seielect.com](http://www.seielect.com).

Stackpole Electronics Inc. is a leading global manufacturer of resistors supplying to the world's largest OEMs, contract manufacturers and distributors. Headquartered in Raleigh, N.C., the privately held company began manufacturing in 1928 as part of Stackpole Carbon Company in St. Mary's, Pennsylvania. Now part of the Akahane Stackpole Manufacturing Group (ASMG), Stackpole has manufacturing facilities in Japan, Taiwan, China and Mexico; warehousing facilities in El Paso, Shenzhen and Japan; and international sales offices in Tokyo, Taipei, London, Hong Kong and Shenzhen.
