

RV Series

Radial Leaded MOV's for a Wide Variety of Applications in Stock

RALEIGH, NC (Sept. 20, 2017) – Stackpole's RV series of radial leaded metal oxide varistors are in stock in a wide range of sizes and working voltages. The RV series is UL1449 certified and is available in sizes from 5mm up to 20mm with peak current ratings up to 18,000 amps and energy handling up to 792J. The RV series offers over voltage protection for electronics with operating voltages ranging from 14VDC to 1465VDC. Applications include board level circuit protection, communications, network devices, distribution panels, line protection for a wide range of products including white goods, video and audio equipment, lighting ballasts, power supplies, electric motors and motor controls and surge protectors.

Pricing depends on size and working voltage and ranges from \$0.06 each to \$0.465 each in full package quantities. Contact Stackpole or one of our franchised distributor partners for volume pricing.

For more information about Stackpole products, contact Stackpole Electronics, Inc. at 2700 Wycliff Road Suite 410, Raleigh NC 27607; phone 919-850-9500; email marketing@seielect.com; or visit the website at www.seielect.com.

Stackpole Electronics Inc. is a leading global manufacturer of resistors supplying to the world's largest OEMs, contract manufacturers and distributors. Headquartered in Raleigh, N.C., the privately held company began manufacturing in 1928 as part of Stackpole Carbon Company in St. Mary's, Pennsylvania. Now part of the Akahane Stackpole Manufacturing Group (ASMG), Stackpole has manufacturing facilities in Japan, Taiwan, China and Mexico; warehousing facilities in El Paso, Shenzhen and Japan; and international sales offices in Tokyo, Taipei, London, Hong Kong and Shenzhen.
