RNCS Kits

For Prototyping Precision Anti-Moisture Applications

RALEIGH, NC (Oct. 17, 2017) – Stackpole Electronics, Inc. offers engineering sample kits for their popular RNCS series of anti-moisture thin film chip resistors. The KIT - RNCS0603BKE offers 20 pieces each of the 45 most popular 0603 values ranging from 49.9 ohms up to 249K in 0.1% tolerance and 25 ppm TCR. The KIT - RNCS0805BKE offers 20 pieces each of the 47 most popular 0805 size values from 10 ohms to 499K also in 0.1% tolerance and 25 ppm TCR. Parts are packaged in cut tape and provided in a compact binder for convenience.

RNCS kits are ideal for prototyping applications such as portable test equipment, portable medical devices and monitors, precision power monitoring and control, industrial and commercial motor controls, battery management, communications testing and monitoring, automotive control, and automotive audio applications.

Pricing for the RNCS0603 kit is \$104.00 each and for the RNCS0805 kit is \$112.00 each.
