

RPC-UP

Ultra High Power Pulse Withstanding Chip Resistors

RALEIGH, NC (Oct. 9, 2018) – Stackpole Electronics, Inc. announces the release of the RPC-UP ultra high power pulse withstanding chip resistors. The RPC-UP is available in a 0.5 watt rated 0805 size and a 0.75 watt 1206 size chip. The RPC-UP maintains the same excellent pulse handling the RPC series is known for but greatly improves the power handling allowing its use in a wide variety of applications with pulse handling requirements which would normally require a larger chip. This series offers tolerances as low as 0.5% and TCR of 200 ppm and 100 ppm depending on resistance value.

The RPC-UP adds to the RPC-HP high power pulse withstanding series which offers high power handling for sizes from 0603 through 2010.

RPC-UP pricing ranges from \$0.021 to \$0.084 each in full package quantities. Contact Stackpole or one of our franchised distributor partners for volume pricing.

For more information about Stackpole products, contact Stackpole Electronics, Inc. at 3110 Edwards Mill Road, Suite 207, Raleigh, NC 27612; phone 919-850-9500; email marketing@seielect.com; or visit the website at www.seielect.com.

Stackpole Electronics Inc. is a leading global manufacturer of resistors supplying to the world's largest OEMs, contract manufacturers and distributors. Headquartered in Raleigh, N.C., the privately held company began manufacturing in 1928 as part of Stackpole Carbon Company in St. Mary's, Pennsylvania. Now part of the Akahane Stackpole Manufacturing Group (ASMG), Stackpole has manufacturing facilities in Japan, Taiwan, China and Mexico; warehousing facilities in El Paso, Shenzhen and Japan; and international sales offices in Tokyo, Taipei, London, Hong Kong and Shenzhen.
