

HVC

High Voltage Chip Resistors in Stock

RALEIGH, NC (Oct. 22, 2018) – Stackpole Electronics Inc. has expanded its stock position for its popular HVC Series. In addition to increasing the number of resistance values available, Stackpole also offers a wide range of tolerance options as precise as 0.1% and TCR as low as 25 ppm. The HVC is a thick film surface mount chip resistor series designed for high voltage handling and high resistance value. Sizes available are 0603, 0805, 1206, 2010, and 2512. The HVC's high precision capability and low VCR is ideal for precision voltage division, medical applications, and other high voltage supplies and controls.

Pricing for the HVC varies with size, resistance value, tolerance, and TCR. Contact Stackpole or one of our franchised distributor partners for volume pricing.

For more information about Stackpole products, contact Stackpole Electronics, Inc. at 3110 Edwards Mill Road, Suite 207, Raleigh, NC 27612; phone 919-850-9500; email marketing@seielect.com; or visit the website at www.seielect.com.

Stackpole Electronics Inc. is a leading global manufacturer of resistors supplying to the world's largest OEMs, contract manufacturers and distributors. Headquartered in Raleigh, N.C., the privately held company began manufacturing in 1928 as part of Stackpole Carbon Company in St. Mary's, Pennsylvania. Now part of the Akahane Stackpole Manufacturing Group (ASMG), Stackpole has manufacturing facilities in Japan, Taiwan, China and Mexico; warehousing facilities in El Paso, Shenzhen and Japan; and international sales offices in Tokyo, Taipei, London, Hong Kong and Shenzhen.
