

## TR Series

### TO-220 and TO-247 Style Power Resistors in Stock

**RALEIGH, NC** (Oct. 31, 2018) – The TR Series from Stackpole offers a compact power resistor solution for applications requiring the use of a heat sink. The TR series offers 20W, 30W, 35W, 50W, and 50WH\* sizes in a TO-220 style package and a 100W size in a TO-247 style. The TR features electrically isolated molded housings and a non-inductive screw mount or clip mount package.

The power film elements exhibit excellent test performance when used with a properly sized heat sink. These package styles are commonly used in power semiconductors, switching power supplies, automotive, motor controls, and high frequency/high speed pulse applications.

Stackpole has stock on more than 90 of the most popular size and resistance value combinations. Pricing for the TR varies with size, resistance value, tolerance, and TCR. Contact Stackpole or one of our franchised distributor partners for volume pricing.

For more information about Stackpole products, contact Stackpole Electronics, Inc. at 3110 Edwards Mill Road, Suite 207, Raleigh, NC 27612; phone 919-850-9500; email [marketing@seielect.com](mailto:marketing@seielect.com); or visit the website at [www.seielect.com](http://www.seielect.com).

Stackpole Electronics Inc. is a leading global manufacturer of resistors supplying to the world's largest OEMs, contract manufacturers and distributors. Headquartered in Raleigh, N.C., the privately held company began manufacturing in 1928 as part of Stackpole Carbon Company in St. Mary's, Pennsylvania. Now part of the Akahane Stackpole Manufacturing Group (ASMG), Stackpole has manufacturing facilities in Japan, Taiwan, China and Mexico; warehousing facilities in El Paso, Shenzhen and Japan; and international sales offices in Tokyo, Taipei, London, Hong Kong and Shenzhen.
