

HVAM

High Voltage Resistors in Stock

RALEIGH, NC (July 15, 2019) – Stackpole is now stocking 10M, 100M, 500M, 1G, and 10G ohm values of its HVAM axial leaded precision resistors. These resistors are designed for high voltage handling and high resistance values with power ratings from 2W to 10W. The proprietary direct film deposition of the HVAM enables tolerances down to 0.1% and TCR as low as ± 50 ppm while offering exceptionally high voltage ratings as follows:

- HVAM20 2W power rating at up to 15KV
- HVAM36 3.6W power rating at up to 15KV
- HVAM50 5W power rating at up to 20KV
- HVAM75 7.5W power rating at up to 30KV
- HVAM100 10W power rating at up to 50KV

The precision high voltage HVAM is a great choice for a wide range of medical applications, circuit protection, voltage dividers, welding and plasma cutting equipment, and high voltage power supplies.

Pricing for the HVAM depends on size, resistance value, tolerance, and TCR. Contact Stackpole or one of our franchised distributors for specific pricing.

For more information about Stackpole products, contact Stackpole Electronics, Inc. at 3110 Edwards Mill Road, Suite 207, Raleigh, NC 27612; phone 919-850-9500; email marketing@seielect.com; or visit the website at www.seielect.com.

Stackpole Electronics Inc. is a leading global manufacturer of resistors supplying to the world's largest OEMs, contract manufacturers and distributors. Headquartered in Raleigh, N.C., the privately held company began manufacturing in 1928 as part of Stackpole Carbon Company in St. Mary's, Pennsylvania. Now part of the Akahane Stackpole Manufacturing Group (ASMG), Stackpole has manufacturing facilities in Japan, Taiwan, China and Mexico; warehousing facilities in El Paso, Shenzhen and Japan; and international sales offices in Tokyo, Taipei, London, Hong Kong and Shenzhen.
