

## RNCF Stackpole's Ultra Precision AEC-Q200 Compliant Thin Film Resistors in Stock

**RALEIGH, NC** (Aug. 22, 2019) – Stackpole has expanded its stock of its AEC-Q200 qualified precision thin film. Available in tolerances down to  $\pm 0.01\%$  and  $\pm 5$  PPM temperature coefficient, the RNCF is available in various values and case sizes. Resistance values in stock range from 24.9 ohm up to 49.9 K ohm in sizes 0402, 0603, 0805, 1206, and 2512. This inventory expansion allows for fast prototyping and design validation for high precision applications which would normally not be possible.

The exceptional performance of the RNCF is ideal for precision applications such as instrumentation, medical applications and monitoring, precision controls, avionics, telecom, industrial controls, as well as test and measurement equipment.

Pricing for the RNCF depends on size, resistance value, tolerance and TCR. Contact Stackpole or one of our franchised distribution partners for specific or volume pricing.

For more information about Stackpole products, contact Stackpole Electronics, Inc. at 3110 Edwards Mill Road, Suite 207, Raleigh, NC 27612; phone 919-850-9500; email [marketing@seielect.com](mailto:marketing@seielect.com); or visit the website at [www.seielect.com](http://www.seielect.com).

Stackpole Electronics Inc. is a leading global manufacturer of resistors supplying to the world's largest OEMs, contract manufacturers and distributors. Headquartered in Raleigh, N.C., the privately held company began manufacturing in 1928 as part of Stackpole Carbon Company in St. Mary's, Pennsylvania. Now part of the Akahane Stackpole Manufacturing Group (ASMG), Stackpole has manufacturing facilities in Japan, Taiwan, China and Mexico; warehousing facilities in El Paso, Shenzhen and Japan; and international sales offices in Tokyo, Taipei, London, Hong Kong and Shenzhen.
