

PV Series

Offers SMD Versions of 5mm and 7mm Disk Varistors

RALEIGH, NC (July 5, 2018) – The PV series from Stackpole offers 2 chip sizes, 3225 and 4032. These two sizes correspond to the equivalent 5mm and 7mm disk MOV's offering protection for circuits with working voltages ranging from 11 Vrms to 300 Vrms. PV varistors are UL recognized with the capability to handle up to 30J of energy and maximum surge current ratings up to 1200A. The PV is flameproof per UL 94V-0. It is ideal for various applications, including power supplies, LED lighting, telecommunications, home appliances, utility meters, controls, protection for detectors and sensors, and touch screens.

Pricing for the PV series in low volume ranges from \$0.28 to \$0.42 each depending on size and voltage. Contact Stackpole or one of our franchised distribution partners for volume pricing.

For more information about Stackpole products, contact Stackpole Electronics, Inc. at 3110 Edwards Mill Road, Suite 207, Raleigh, NC 27612; phone 919-850-9500; email marketing@seielect.com; or visit the website at www.seielect.com.

Stackpole Electronics Inc. is a leading global manufacturer of resistors supplying to the world's largest OEMs, contract manufacturers and distributors. Headquartered in Raleigh, N.C., the privately held company began manufacturing in 1928 as part of Stackpole Carbon Company in St. Mary's, Pennsylvania. Now part of the Akahane Stackpole Manufacturing Group (ASMG), Stackpole has manufacturing facilities in Japan, Taiwan, China and Mexico; warehousing facilities in El Paso, Shenzhen and Japan; and international sales offices in Tokyo, Taipei, London, Hong Kong and Shenzhen.
