

RPC-UP

Ultra High Power Pulse Withstanding Chip Resistors in Stock

RALEIGH, NC (July 30, 2019) – Stackpole has increased the power rating of its popular RPC Series. The RPC-UP from Stackpole offers 0805 and 1206 size chip resistors with excellent pulse withstanding and high power ratings. RPC0805_-UP is rated at 0.5W and 400V working voltage and the RPC1206_-UP is rated at 0.75W and 500V. Resistance values range from 1 ohm to 1Meg ohm with tolerances from 20% to 0.5% available for some resistance values. The exceptional pulse handling and high power handling allow the RPC-UP to be used in applications normally requiring much larger and more expensive resistor types. Many popular values are now in stock.

Pricing for the RPC-UP depends on size and tolerance and ranges from \$0.024 to \$0.032 each in full package quantities. Contact Stackpole or one of our franchised distribution partners for volume pricing.

Pricing for the HVAM depends on size, resistance value, tolerance, and TCR. Contact Stackpole or one of our franchised distributors for specific pricing.

For more information about Stackpole products, contact Stackpole Electronics, Inc. at 3110 Edwards Mill Road, Suite 207, Raleigh, NC 27612; phone 919-850-9500; email marketing@seielect.com; or visit the website at www.seielect.com.

Stackpole Electronics Inc. is a leading global manufacturer of resistors supplying to the world's largest OEMs, contract manufacturers and distributors. Headquartered in Raleigh, N.C., the privately held company began manufacturing in 1928 as part of Stackpole Carbon Company in St. Mary's, Pennsylvania. Now part of the Akahane Stackpole Manufacturing Group (ASMG), Stackpole has manufacturing facilities in Japan, Taiwan, China and Mexico; warehousing facilities in El Paso, Shenzhen and Japan; and international sales offices in Tokyo, Taipei, London, Hong Kong and Shenzhen.
